Dear Member,

For over 100 years, NJEA and its members have worked to obtain and protect public school employees' pensions and benefits. Your help is essential to our future success. In the months ahead, we will be asking you to answer the call and join the fight. With your help, we will succeed.

NJEA is fully prepared and organized to defeat any proposal that would diminish members' benefits or destabilize the pension fund. The Association has had two major task forces comprised of over 75 staff and leaders working on every aspect of this issue, including lobbying, organizing, and advertising.

Acting Governor Codey's Benefits Review Task Force recently released an advisory document that received extensive media coverage. **The report's recommendations are proposals only. None have been discussed in the Legislature, and none have been adopted.**

Best regards,
Joyce Powell
NJEA President
